

## Aviation Meteorology

Nashville Flight Training and Embry-Riddle Aeronautical University are pleased welcome Adjunct Professor, of Aeronautics, Tim Alexander. Tim has worked as a Meteorologist for the US Air Force and National Climatic Data Center. This 90-minute presentation focuses on the key principles of aviation meteorology, including the physical characteristics of the earth's atmosphere and the various ways these properties impact weather.

**Directions:** Proceed through front door to meeting room at rear of hangar.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
